EBSCO thinks global, but acts local!

“Customer Satisfaction”

>120 international
Customer-Satisfaction-
Employees

Together we focus on the four pillars of a discovery service

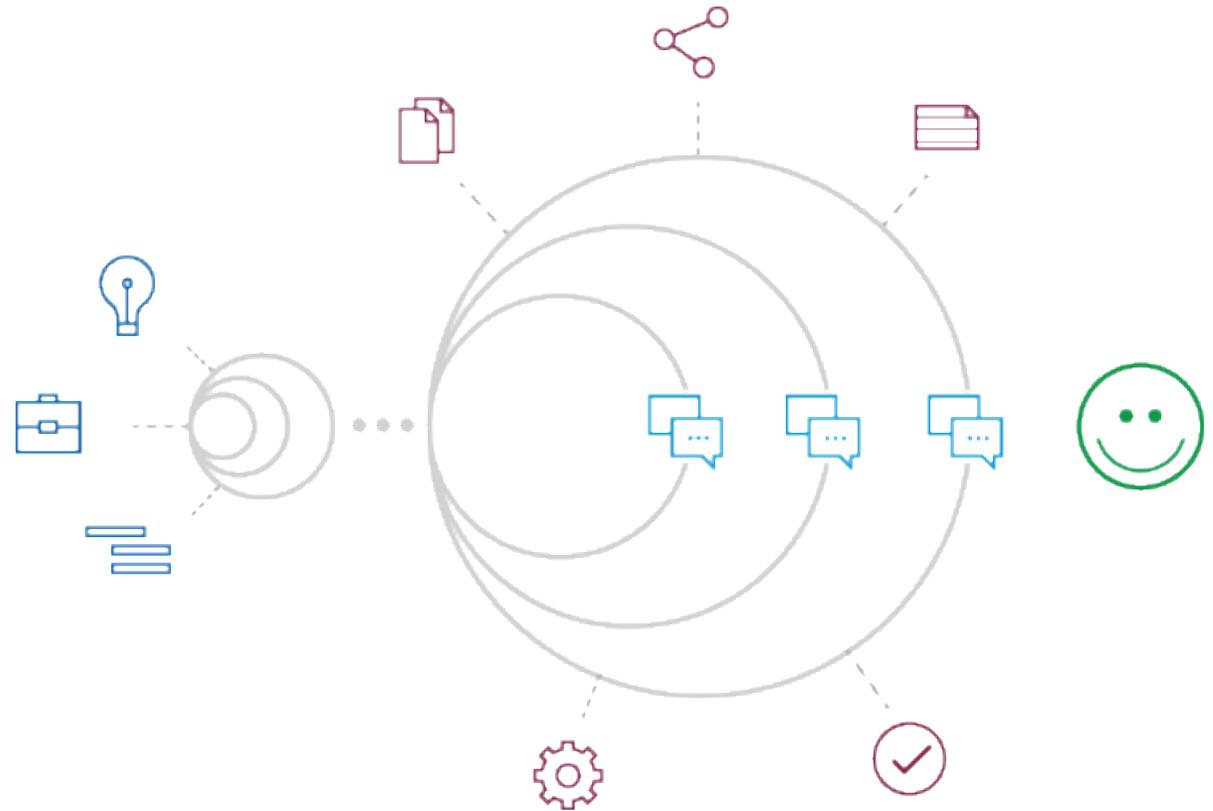

Current development and applications of EDS

Agile Development

Agile Development

“While each of the agile methodologies is unique in its specific approach, they all share a common vision and core values [...] They all fundamentally incorporate iteration and the continuous feedback that it provides to successively refine and deliver a software system...”

“... They all involve continuous planning, continuous testing, continuous integration, and other forms of continuous evolution of both the project and the software...”

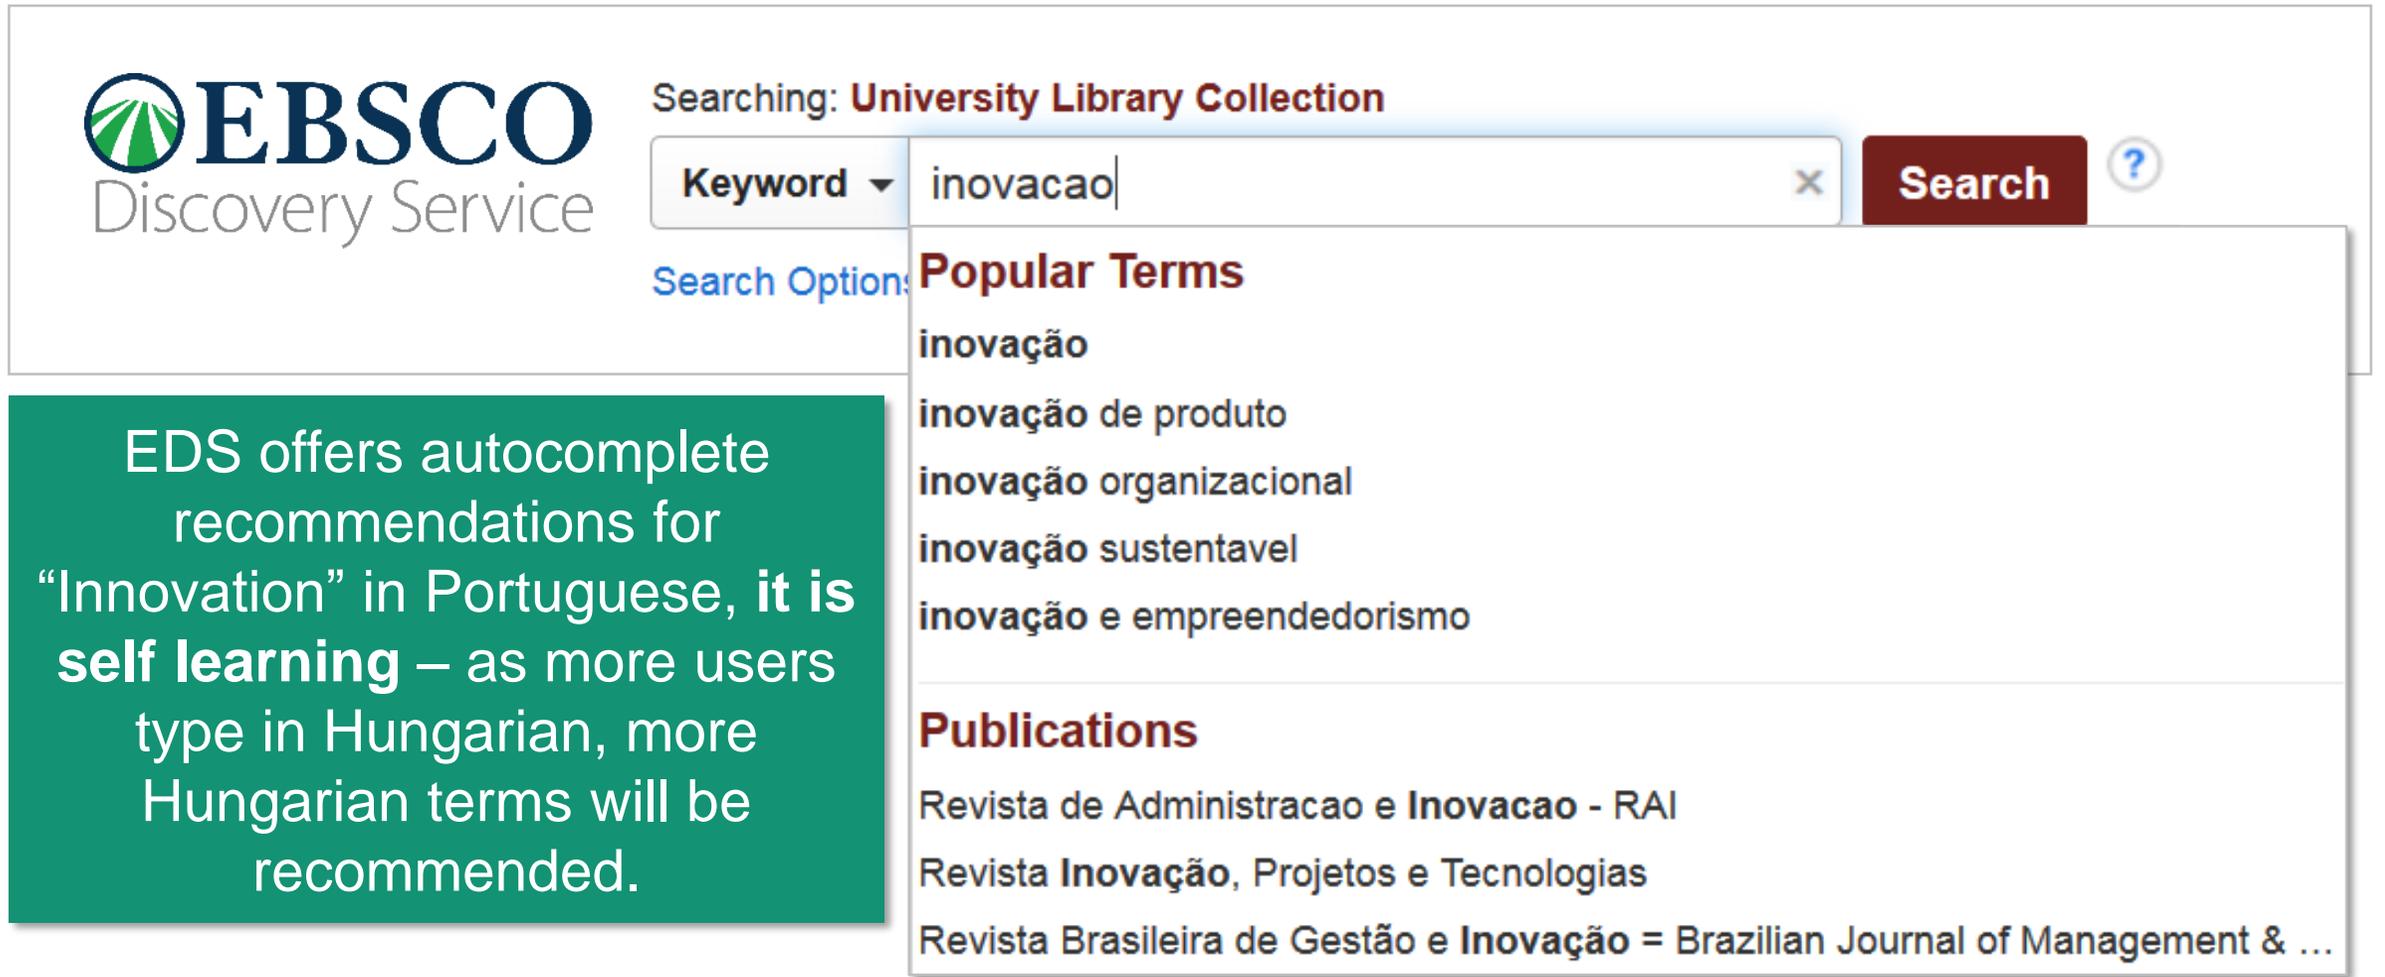

Quelle: <https://www.versionone.com/agile-101/>

Step 1: Autocomplete

Autocomplete

The screenshot shows the EBSCO Discovery Service search interface. The search bar contains the keyword "inovacao". Below the search bar, a dropdown menu displays suggestions under two categories: "Popular Terms" and "Publications".

Popular Terms

- inovação
- inovação de produto
- inovação organizacional
- inovação sustentável
- inovação e empreendedorismo

Publications

- Revista de Administracao e Inovacao - RAI
- Revista Inovação, Projetos e Tecnologias
- Revista Brasileira de Gestão e Inovação = Brazilian Journal of Management & ...

EDS offers autocomplete recommendations for “Innovation” in Portuguese, it is self learning – as more users type in Hungarian, more Hungarian terms will be recommended.

Step 2: Spelling **Suggestions**

Spelling Suggestions

Searching: **Discovery Service for University of Debrecen**

The value of hyperlinking database names

- Users will get to know specialized subject indexes, as they are offered by the library
- Users will be able to familiarize themselves with native user interfaced, tailored to the specific needs of a specific source, enabling them to „dive deep“
- Users can access indexes and thesauris of the individual database

Improved handling of diacritics

- uña (Nail) ≠ una (One)
- This will benefit every language, where diacritic marks can change meaning
 - We will be re-indexing our databases to support this
 - We are working with clients and internal testers to ensure we are getting it right!
 - It is a much tougher problem than it might appear at first

And this was only a small glimpse into what
we were working on...

There is much more in the pipeline!

Some implementations from around the world
